

New to the program? A few things:

1. Login. Just click the Login button (the big door) and follow the instructions.
2. My Courses. The page you land on may seem bewildering at first. Don't worry. If you're not a catechetical leader you won't need the great majority of what you see.

Move your cursor over the words "My Courses." If you don't see it, look near the top, right under "Catechist Certification Program."

3. Pick One! Choose any of the options to get started. Go back to "My Courses" if you want to look at the others.

You're free to start previewing content immediately, but you'll probably want to talk with your catechetical leader first. He/she can get you on the road to certification, and help you navigate through the site.

Most importantly, you'll probably be working through the program together as a group. That means you probably won't need to worry about using the discussion boards. Most likely, you'll come together to watch the videos and have discussions at your parish or school. Enjoy!

If you are a catechetical leader, please contact Rod Stearn at: rstearn@cdlex.org.
